

# Smoke and Natural Ventilation

BREATHING A HEALTHY ENVIRONMENT

# SMOKE VENTILATION

## Safety Systems INSTALLING PIECE OF MIND

Smoke Control Solutions Ltd have a wealth of knowledge in the natural smoke ventilation sector with over 25 years experience in installing and commissioning compliant systems.

With an experienced technical department and field based engineers we are able to offer solutions to the most complex project specifications on both new build and refurbishment projects.

Smoke ventilation systems are required in most building types as a life safety system and these are often utilised as a dual function to allow the common areas to be comfort cooled also.

It is advisable to involve us in the early stages of design and we often discuss preliminary plans to offer advice of any non-compliant areas prior to construction issue approval thus ensuring the most cost effective solutions are implemented.

Working safely is paramount to us and we hold accreditations with CHAS, Safe Contractor & SMAS WorkSafe Contractor. We are also members of the Smoke Control Association (SCA).

## NATURAL VENTILATION

S J Fry Window Controls supply, install and maintain remote manual window controls and electric actuators used in natural ventilation systems.
